Interim Report 2012 年中期報告

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Viva China Holdings Limited (the “Company” or “Viva China”, which together with its subsidiaries, the “Group”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM (“GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive and there are no other matters the omission of which would make any statement herein or this report misleading.

MANAGEMENT DISCUSSION AND ANALYSIS

RESULTS

For the first half of the year of 2012, the Group achieved a consolidated revenue of HK\$16.3 million (2011: HK\$8.9 million), representing a growth of HK\$7.4 million or 83%. Gross profit in the same period was HK\$11.9 million (2011: HK\$5.0 million). Growth in revenue and gross profit was directly attributed to the improving performance of our sports businesses and our acquisition of Shenyang Zhaohuan Modern Construction Industrial Park Company Limited ("Shenyang Zhaohuan") in April 2011.

Other income and gains in this half year amounted to HK\$15.8 million (2011: HK\$135.3 million), mainly comprised bank interest income of HK\$10.2 million (2011: HK\$5.0 million). Included in the 2011 figures was a one-off gain of HK\$105.5 million recognised in relation to the acquisition of Shenyang Zhaohuan, as a result of a bargain purchase.

Selling and distribution costs of the half year period totalled HK\$9.1 million (2011: HK\$6.2 million), an expected rise given the increase in marketing and promotional activities of our sports businesses. Administrative and other operating expenses ("Administrative Expenses") of the half year under review was HK\$79.3 million (2011: HK\$77.5 million). Excluding non-cash items, the Administrative Expenses was HK\$44.3 million (2011: HK\$47.5 million). The slight decrease was mainly due to an off-setting effect of increase in level of spending to cope with increasing business activities but less professional fee incurred in the current half year comparing to the same period last year. The non-cash items in the Administrative Expenses mainly included amortisation of share option expenses, intangible assets and depreciation of fixed assets with an aggregate amount of HK\$23.2 million (2011: HK\$30.0 million). In the period under review there was an impairment of intangible assets of the Sports segment of HK\$6.4 million (2011: Nil), according to the management's latest impairment assessment.

Besides, under the latest review of the business value of the green energy business, the board of Directors ("the Board") decided to write off the respective goodwill of HK\$155.4 million (2011: Nil).

In the first half of 2012, the Group recorded a net loss of HK\$212.4 million comparing to a net gain of HK\$58.7 million for the corresponding period in 2011. Excluding the one-off and non-cash impairment of green energy's goodwill of HK\$155.4 million and the non-cash impairment of intangible assets of the Sports segment of HK\$6.4 million, the Group's net loss for the period under review was HK\$50.6 million (2011: excluding the one-off and non-cash gain of bargain purchase, the net loss was HK\$46.8 million).

SEGMENT

Sports

The sports business currently encompasses sports talent management, sport and athletic related consulting, and event production. Currently, the Group manages some of China's most desirable athletes and national sports teams. The Group is continually expanding our portfolio of sports properties and has secured the rights to world-class badminton tournaments in China.

The sports segment will also strive to become a professional consulting service provider in facilities management and sports media and content distribution.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

In the first half of 2012, our sports segment generated HK\$8.4 million and HK\$5.8 million in revenue and gross profit respectively, representing a significant growth over the same period in last year (2011: revenue of HK\$7.2 million and gross profit of HK\$4.8 million). The growth was achieved mainly through the talent management business.

For the period under review, the segment recorded an operating loss of HK\$6.2 million (2011: HK\$2.8 million) as a result of increased operating expenses. The Group made a strategic decision to enhance the commercial value and public awareness of our existing talents and to expand the scale of the segment. Therefore heavy investments in human resources and marketing were made to promote these assets.

Sports Community

The sports community segment generated revenue of HK\$5.7 million (2011: HK\$0.3 million) in the period, which was mainly attributed to Shenyang Zhaohuan. In the period, the segment reported an operating loss of HK\$9.3 million (2011: HK\$4.7 million) given increased operating expenses.

Currently, the Group has two projects in this segment:

Changbai Land

On 11 May 2011, the Group successfully bid for a parcel of land (with an area of approximately 117,200 sq.m.) situated at Changbai Dao of Heping District, Shenyang at a consideration of approximately RMB1 billion (equivalent to approximately HK\$1.2 billion). Up to the date of this report, the Group has paid HK\$230.0 million as a deposit and has a capital commitment of RMB817.8 million (equivalent to approximately HK\$1.0 billion).

The land was intended to become a residential and commercial complex with a gross floor area of approximately 350,000 sq.m. However, given the capital requirement of the project and the condition of the property market, the Group is actively searching for parties interested in co-developing or fully taking over the project. The Group will also consider cancelling the project provided that the cancellation will not attract material claims from the seller.

Shenyang Zhaohuan

The project encompasses three parcels of industrial land of approximately 411,600 sq.m. in total size. The Group's strategy is to develop Shenyang Zhaohuan into an environmentally friendly construction materials manufacturing hub. The Group has entered into lease agreements with a construction company for an aggregate site area of roughly 60,000 sq.m. to manufacture environmentally friendly pre-fabricated cement blocks.

Green Energy

Since 2010, the Group has been working closely with an independent third party to launch a series of energy-saving air-conditioning products. Owing to delays in the commercialisation process of the energy saving air-conditioning products jointly developed, the green energy business posted a modest revenue of HK\$2.2 million (2011: HK\$1.4 million) with operating losses amounting to HK\$9.1 million (2011: HK\$3.0 million).

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

At 31 December 2011, the Group had goodwill arising from the acquisition of this green energy segment in prior years with a net carrying amount of approximately HK\$155.4 million. Based on the on-going negotiation between the Group and the independent third party during the period under review and up to the date of this interim report, it is highly probable that certain energy saving air-conditioning products will not be launched in a scale as originally planned in the foreseeable future and spare parts will not be supplied by the Group to the independent third party, as such, the goodwill is tested for impairment and an impairment loss of approximately HK\$155.4 million was recognised in profit or loss for the period ended 30 June 2012 (2011: Nil). The reduction on the recoverable amount of green energy business was driven by substantial reduction in expected net cash inflow from the project, as a consequence of the diminution in the scale of the project and the postponement in the development and commercialisation of certain energy saving air-conditioning products. As at the date of approval of these financial statements, commercial production of the aforesaid products has not yet commenced and therefore the ultimate outcome of the joint development project is uncertain.

Assets and Liabilities

The net working capital of the Group as at 30 June 2012 was HK\$1,000.5 million compared to HK\$1,038.9 million as at 31 December 2011. The decrease was due to an operating loss during the first half of 2012. As at period end date, the equity attributable to shareholders of the Company was HK\$1,876.7 million, representing a decrease of HK\$203.1 million, mainly attributed to the net loss incurred during the first half of 2012. In terms of net tangible assets (net assets less goodwill and intangibles), there was a decrease of HK\$33.0 million compared to the beginning of the period, again mainly due to the net operating loss of the period under review.

Liquidity and Financial Resources

The Group has no bank borrowing or any committed bank borrowing facility as at the period-end date. The Group has other borrowings of HK\$1.0 million as at the end of the period, or a gross gearing ratio (% of borrowings to total assets) of only 0.05%. As at the period end date, the current ratio (ratio of current assets to current liabilities) of the Group was approximately 11 (31 December 2011: 10).

The cash and bank balances as at the period end date was HK\$1,078.0 million, compared to HK\$1,120.7 million on 31 December 2011. The Group's gearing level and liquidity position remain healthy. As of the period end date, the Group has cash and bank balances denominated in Renminbi ("RMB") and Hong Kong Dollar of HK\$402.0 million and HK\$676.0 million, respectively.

The Group's net cash from operation of the period under review had a net outflow of HK\$42.2 million, mainly due to operating loss of the period. Apart from the placement of a fixed deposit of HK\$184.0 million with original maturity of over three months, which is classified as investing activities for the purpose of cash flow, there was no significant net cash flows from investing activities for the period under review. There was no significant cash flow from financing activities for the period under review.

Foreign Currency Risk

The Group operates in Hong Kong and Mainland China. Most of the sales and trading transactions are settled in RMB. Deposits invested into various bank deposits are denominated in RMB and HK\$. The Group maintain its proportion of deposits in RMB and HK\$ in line with its future business and investment plans. The policies to manage foreign currency risk have been followed by the Group since prior years and are considered to be effective and the current foreign currency risk is still manageable.

Capital commitments

As at period end, the Group had capital commitments of RMB817.8 million, equivalent to HK\$997.7 million towards the Changbai Land, which was contracted but not provided for.

Material Transactions

During the period under review, the Group has not entered into any material transaction.

Basis of presentation

As further explained in notes 13 and 21 to the unaudited condensed consolidated financial statements, as at 30 June 2012, the Group had a capital commitment in relation to the acquisition of a parcel of land (the "Changbai Land") in Changbai Dao, Shenyang, Liaoning Province, the People's Republic of China (the "PRC"), which amounted to approximately HK\$997.7 million. The Directors are currently negotiating with independent third parties either to co-develop the Changbai Land with the Group, or to buy out the entire Changbai Land from the Group or directly from the local land bureau. The Group will also consider cancelling the corresponding bidding confirmation (the "Bidding Confirmation"), provided that the cancellation will not attract material claims from the land bureau. Should the negotiations not proceed, the Directors, having obtained legal advice, are of the opinion that the Group will be able to terminate the aforesaid acquisition without significantly impairing the liquidity of the Group. Therefore, notwithstanding the capital commitment, in the opinion of the Directors, it is appropriate for these unaudited condensed consolidated financial statements to be prepared on the going concern basis.

Based on the above consideration, the Directors are satisfied that the Group will have sufficient financial resources to meet its financial obligations as they fall due for the foreseeable future and therefore, the unaudited condensed consolidated financial statements have been prepared on the going concern basis and do not include any adjustments that would be required should the Group not be able to continue as a going concern.

In the current period, the Group has adopted the new and revised Hong Kong Financial Reporting Standards ("HKFRSs") that are relevant to its operations and effective for its accounting year beginning on 1 January 2012. The adoption of these new and revised HKFRSs did not result in significant changes to the Group's accounting policies, presentation of the Group's financial statements and amounts reported for the current and prior periods.

The Group has not applied the new HKFRSs that have been issued but are not yet effective. The Group has already commenced an assessment of the impact of these new HKFRSs but is not yet in a position to state whether these new HKFRSs would have a material impact on its results of operations and financial position.

8. PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 June 2012, the Group did not have any significant acquisition or disposal of property, plant and equipment. During the six months ended 30 June 2011, additions to property, plant and equipment through purchases and acquisition of a subsidiary amounted to approximately HK\$5,303,000 and HK\$3,151,000, respectively.

9. INVESTMENT PROPERTIES

During the six months ended 30 June 2011, the Group acquired investment properties with a fair value of HK\$229,200,000 (note 19) upon acquisition of a subsidiary and further incurred capital expenditure of HK\$12,549,000 in relation to the investment properties during that period. The Group spent approximately HK\$1,937,000 in relation to the investment properties during the current period. As at 30 June 2012, the fair value of the Group's investment properties was HK\$284,041,000, as determined by reference to valuations performed by Savills Valuation and Professional Services Limited, independent professional qualified valuers.

10. LAND USE RIGHTS

There was no significant movement in land use rights during the six months ended 30 June 2012 and 2011. The Group's land use rights are situated in Mainland China and are held under medium term leases.

11. GOODWILL

As at 30 June 2012, the Group had goodwill arising from the acquisitions of subsidiaries operating in the sports-related business in prior years with a net carrying amount of approximately HK\$269.8 million. As at 31 December 2011, the Group had goodwill arising from the acquisitions of subsidiaries operating in the green energy business and sports-related business in prior years with net carrying amounts of approximately HK\$155.4 million and HK\$269.8 million, respectively.

With respect to the goodwill allocated to the green energy business, its recoverable amount has been solely determined based on the anticipated profitability that could be derived from the future launch of certain energy saving air-conditioning products by an independent third party which involve the use of the Group's technical know-how and the supply of certain spare parts by the Group to the independent third party. The Group has been closely monitoring the development and commercialisation of these energy saving air-conditioning products since the inception of this project and an impairment test on the goodwill allocated to the green energy business would be performed if events or changes in circumstances indicate that the carrying amount of the goodwill may be impaired.

Based on the on-going negotiation between the Group and the independent third party during the period under review and up to the date of this interim report, it is highly probable that certain energy saving air-conditioning products will not be launched in a scale as originally planned in the foreseeable future and spare parts will not be supplied by the Group to the independent third party, as such, the goodwill is tested for impairment and an impairment loss of approximately HK\$155.4 million was recognised in profit or loss for the period ended 30 June 2012 (2011: Nil). The reduction on the recoverable amount of the green energy business as compared with that as at 31 December 2011 was driven by the substantial reduction in expected net cash inflow from the project, as a consequence of the diminution in the scale of the project and the postponement in the development and commercialisation of certain energy saving air-conditioning products. As at the date of approval of these financial statements, commercial production of the aforesaid products has not yet commenced and therefore the ultimate outcome of the joint development project is uncertain.

12. OTHER INTANGIBLE ASSETS

The Group's other intangible assets mainly represent sports-related business contracts acquired in 2010 upon acquisition of subsidiaries. During the period under review, the Group re-assessed the carrying values of these intangible assets and based on the results of the re-assessment, an impairment loss of HK\$6,419,000 (2011: Nil) was recognised in profit or loss. Apart from the aforesaid impairment loss and amortisation of other intangible assets of HK\$8,025,000 there was no significant movements in other intangible assets during the six months periods ended 30 June 2012 and 2011.

13. DEPOSIT PAID FOR ACQUISITION OF A LAND USE RIGHT

In May 2011, the Group paid a deposit of RMB190 million (equivalent to approximately HK\$230 million) to a planning and land and resources bureau (the "Land Bureau") in Mainland China for the acquisition of the Changbai Land. The deposit will be applied as part of the consideration payment. As at 30 June 2012 and the date of approval of these unaudited condensed consolidated financial statements, the Group has not yet signed the relevant sales and purchase agreement and has not settled the remaining consideration payment, and therefore the land certificate of the Changbai Land has not yet been obtained. The unpaid portion, pursuant to the Bidding Confirmation entered into between the Group and the Land Bureau on 11 May 2011, was disclosed in note 21 as a capital commitment. Pursuant to the Bidding Confirmation, the unpaid portion was due to be settled before the end of the reporting period and as a result, the Group may be held liable to claims of late payment penalties, forfeiture of deposits and other damages from the Land Bureau. By reference to a legal opinion, the Directors estimate the claims, if any, would only be limited to RMB190 million (equivalent to approximately HK\$230 million), representing the forfeiture of the deposit. Furthermore, as at the end of the reporting period and at the date of approval of the unaudited condensed consolidated financial statements, neither demand note nor indictment from the Land Bureau in respect of the Group not fulfilling the Bidding Confirmation has been received by the Group. Therefore, the Directors considered that no impairment is needed for the aforesaid deposit.

14. TRADE RECEIVABLES

The Group's trading terms with its customers are mainly on credit, generally one month, extending up to four months for major customers. Each customer has a maximum credit limit. Overdue balances are reviewed regularly by senior management. In the opinion of the Directors, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest bearing.

An aged analysis of the trade receivables that are not considered to be impaired as at the end of the reporting period, based on the payment due date, is as follows:

19. BUSINESS COMBINATION

There was no business combination during the six months ended 30 June 2012. In respect of the prior period, pursuant to a new acquisition agreement entered into between the Company and two independent third parties on 4 March 2011, the Company acquired the entire interest in Shenyang Zhaohuan for the aggregate consideration of RMB100 million (equivalent to approximately HK\$119.5 million) out of which (i) RMB81 million (equivalent to approximately HK\$96.8 million) paid to the vendor in cash and (ii) the remaining RMB19 million (equivalent to approximately HK\$22.7 million) settled by way of assuming the payment obligation owed by the other vendor for capital contribution in relation to the registered capital of Shenyang Zhaohuan.

The fair values of the identifiable assets and liabilities of the subsidiary acquired during the period ended 30 June 2011 as at the date of acquisition were as follows:

	HK\$'000
Property, plant and equipment	3,151
Investment properties	229,200
Deferred tax assets	7,214
Trade receivable	102
Prepayments, deposits and other receivables	20,806
Cash and bank balances	4,563
Other payables and accruals	(16,853)
Income tax payable	(45,853)
Total identifiable net assets at fair value	202,330
Gain on bargain purchase of the subsidiary	(105,498)
	96,832
Satisfied by:	
Cash	96,832

19. BUSINESS COMBINATION (continued)

An analysis of the cash flows in respect of the acquisition of the subsidiary is as follows:

	HK\$'000
Cash and bank balances acquired	4,563
Cash consideration	(96,832)
Net outflow of cash and cash equivalents included in cash flows used in investing activities	(92,269)
Transaction costs for the acquisition included in cash flows used in operating activities	(2,360)
Net outflow of cash in respect of the acquisition of the subsidiary	(94,629)

In accordance with HKFRS 3 (Revised) *Business Combinations*, the Group had assessed the fair value of the net identifiable assets acquired and the liabilities assumed of Shenyang Zhaohuan as at the acquisition date. Included in the acquisition-date management accounts of Shenyang Zhaohuan was a deferred income (included in the liability section of its statement of financial position), which had been confirmed with the Group's legal advisor that such deferred income did not constitute any obligations and it was not expected that an outflow of resources embodying economic benefits would be required in the future. Therefore, the deferred income did not fall into the definition of an asset or a liability for the purpose of HKFRS 3 (Revised) and was derecognised at consolidation level as at the acquisition date. As a consequence of the aforesaid adjustment together with other fair value adjustments made, the total identifiable net assets at fair value acquired at the date of acquisition amounted to HK\$202.3 million which exceeded the cash paid of HK\$96.8 million and, accordingly, a non-cash and non-recurring gain on bargain purchase of HK\$105.5 million was recognised.

Acquisition-related costs amounting to HK\$2,360,000 have been excluded from the consideration transferred and have been recognised as an expense in the prior period and included in administrative expenses in the profit or loss for the prior period.

Since its acquisition, the subsidiary acquired during the prior period contributed HK\$284,000 to the Group's revenue and had a loss of HK\$1,729,000 dealt with in the Group's results for the period ended 30 June 2011.
